OTHER TITLES:

- Spiders and Minibeasts
- Wolves
- Bids of Prey
- Rats

ABOUT THE SERIES:

- The new Scary Creatures series is an informative and entertaining approach to the more grisly aspects of natural history.
- Photographs and startlingly realistic illustrations accompanied by simple but fascinating text introduce young readers to the facts about each type of creature.
- Questions and 'Did you know?' fact boxes help make the information easily accessible.
- Two 'x-ray' pictures are featured in each book: the external image of a creature is printed on one side and its skeleton or internal structure on the other. When the picture is held up to the light the 'see-through' effect can be seen.
- Each book in the series has a comprehensive glossary, an index and a facts section.
